

Directions to Scripps Institution of Oceanography, La Jolla, CA from San Diego International Airport (N. Harbor Drive)

When you depart from SAN you will be on N. Harbor Drive. It is important to **veer to the left quickly** in order to catch the turn lane onto W. Laurel St. If you miss the turn, you may proceed (keeping to the left) to W. Grape Street, as both W. Laurel and W. Grape will take you to an on ramp for I-5 North.

Note: Grape Street puts you on the free way faster than Laurel St. which has you driving along on India St. for several blocks before entering onto I-5.

Take I-5 North approximately 10 miles to **La Jolla Parkway**. The **exit ramp** is on the **right of I-5**. Follow La Jolla Parkway **West** down a big hill into La Jolla. At the third stop light turn right onto La Jolla Shores drive. (There is a gas station on the near right corner.)

To arrive at Nierenberg Hall, follow La Jolla Shores Drive north through a stop light, a 4-way stop sign, a 2nd stop light at the main entrance to Scripps Institution of Oceanography, and under a foot (suspension) bridge. If it is daytime, you will notice cars parked along the right/east side of the street. After passing under the footbridge and right after the parked cars end, you will turn right into Parking Lot P014. The “street name” is Shellback Way.
